1. ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 - 62, drawn to a profile of particulate components of a body fluid.

Group II, claim(s) 63 - 64, drawn to coating plurality of lanes of a carrier with a specific molecule in a biological sample.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a device for causing controlled flow of the body fluid sample on a substrate. See MPEP § 806.05(d).

4. A telephone call was made to Sole Sheinbein on December 15, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2625

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
